

ESTACADA SCHOOL DISTRICT

Inclement Weather Information

It is that time of the year when the weather conditions may cause the schools and busses to be delayed. Our procedures make it possible to transport students to school when it is not possible for our busses to complete their regular route. The snow routes have been developed to eliminate only those stops, which most often are the ones the drivers cannot reach. Students affected by the snow routes will be contacted individually by letter indicating the time and location the student needs to meet the bus when snow routes are in effect.

Radio/Television announcements are made about school closures, late openings and snow routes.

- A school closure means all activities are cancelled as well.
- An announcement of “late opening” will include one hour or two hours later than usual.
- AM Kindergarten classes are cancelled if there is a late opening.
- Busses will always be on a snow route if there is a late opening.
- Busses may be on snow route when schools open on time.
- To avoid confusion, when busses are on a snow route in the morning they will be on a snow route in the afternoon regardless of weather or road conditions.
- When a snow route is in effect students must meet the bus at the snow route stop even though the regular stop may be accessible.

If you have questions please contact the Transportation Department at 503-630-8606

Route	Roads Affected
2	<u>Amisigger</u> past Judd Rd., <u>232nd</u>
